

Inspiring all girls to be
strong, smart, and bold

**Girls Inc. of Greater Santa Barbara
Camp Ignite- Teen Center
Summer 2019**

Participants will have the opportunity to explore each of these weekly themes through a variety of activities that include **cooking, art, science, college and careers, advocacy** and more.

Week #1 June 17- June 21 – We Are Creative!

Participants have the right to express themselves with originality and enthusiasm! And this week you will do just that. Channel your inner creativity and also express your thoughts as you develop art skills in our week dedicated to street art! You will create stencils, block prints, and learn how to use spray paint to create incredible images!

Week #2 June 24- June 28 – We Are Green!

Lower your carbon footprint and increase your eco knowledge as you learn about ways to protect the community we live in and the earth we live on! Activities this week will focus on all the ways we can be more environmentally friendly and protect our world for generations to come!

Week #3 July 1- July 5 – We Are Explorers!

Santa Barbara is one of the few places in the country where you can hike a mountain, surf, chill on the beach, and go on a boat all in the same day, and we love that about it! This week will feed your adventurous spirit and open your eyes to all that there is to explore in your home-town and beyond!

Week #4 July 8- July 12 – We Are Detectives!

Are you ready to tune into your instincts and listen to your intuition while we solve mysteries and also learn about interesting careers in Forensic Science and psychology? This week will be action packed as you learn to dust for finger prints, analyze handwriting, and learn about cool women in this field.

Week #5 July 15- July 19 – We Are Diverse!

Community, inclusion, and advocacy are the words of the week as participants learn about differences in culture, customs, appearances, abilities, and lifestyles. This week we will focus on what makes us unique as well as love and embrace others!

Week #6 July 22- July 26 – We Are STEMinist!

From chemistry in the kitchen to physics on the sports field, you will discover firsthand how STEM is a part of everything we do. Be curious, ask questions, ignite passion, and explore your creativity!

Week #7 July 29-August 2 – We Are Fueled at SBCC!

Participants this week will learn about the college experience at our own Santa Barbara City College. Take a trip to the bookstore, visit summer classes, meet with professors, eat where the students eat, walk to the beach, and actively experience college life!

Week #8 August 5-August 9 – We Are Community!

We will host a Teen Center BBQ and share a meal with family and friends at our end-of-summer celebration. As the week closes, participants say farewell to summer by enjoying a day at the beach with their friends and awesome staff who inspired them to be strong, smart, and bold!
